RE: Flushpuppies pet-waste bags

Dear Mr. Spoot:

This is to confirm that Flushpuppies pet-waste bags are produced by BPI-approved manufacturers from BPI-certified materials. These products are authorized to carry the BPI Compostable Logo (shown on the right) because they meet all of the requirements of ASTM D6400 or ASTM D6868: they will disintegrate and biodegrade swiftly and safely in a professionally managed composting facility and not leave behind any non-compostable residues.

Should any municipalities have any questions, specifically questions about specific SKUs or item numbers, they can contact me directly by phone or email.

Sincerely,

A handwritten signature in black ink that reads "David S. Brooks".

David S. Brooks  
Certification Manager
